

Economic Evaluation for Oncology

27 April 2017

TIMETABLE

Trainers: Matthew Taylor, York Health Economics Consortium
Kelly Fleetwood, Quantics Consulting

- 09:45** Welcome and Introduction to the Workshop
- 10:00** Introduction to Economic Modelling in Oncology
- 10:15** Model Choice: Markov Model, Partitioned Survival, or Patient Simulation?
- 10:45** Coffee
- 11:00** The Nature of Oncology Models: What Drives the Outcome?
- 11:30** Analysis of Survival Curves: Fitting and Extrapolation
- 12:30** Lunch
- 13:15** Group Exercise: Survival Curve Analysis
- 14:00** Advanced Methods in Survival Curve Analysis
- 14:45** Coffee
- 15:00** Half Cycle “Correction”: Right or Wrong?
- 15:15** Group Exercise: Exploring A Real Oncology Model
- 16:00** Issues in the Probabilistic Sensitivity Analysis of Oncology Models
- 16:30** Close
