

## Identifying Clinical Trials for Systematic Reviews: Searching Trials Registers and Regulatory Agency Websites

### SAMPLE AGENDA

**Trainers:** Julie Glanville, York Health Economics Consortium, York, UK

- Session 1: Why do we need to know about ongoing research?
- Session 2: What are trials registers? Background and brief history
- Session 3: Key trials and trials results registers
- Session 4: Finding clinical trials, research registers and research results (presenters' website)
- *Exercise 1:* Exploring the trials search website
  
- Session 5: Search issues in key trials registers
- *Exercise 2:* ClinicalTrials.gov and the WHO Portal (ICTRP)
- Session 6: Other research registers
- Session 7: Obtaining trial information from regulatory agencies: the (US) FDA and (European) EMA websites
- Session 8: Record management issues: downloading results
- Session 9: Record management issues: documenting and reporting searches
